Information for the user

Please read all of this leaflet carefully because it contains important information for you

This medicine has been made, especially for you, in accordance to your doctor's prescription. If you have any further questions about your medicine or this leaflet please speak to your pharmacist or doctor.

What is in your medicine

A list of the key ingredients used to make this medicine can be found on the label of the product. If you would like to know more about these ingredients and why they have been included in your medicine please ask your pharmacist.

Before you take or use this medicine

Before you take or use this medicine make sure that you tell your pharmacist or doctor about **any** other medicines you might be using.

If you are unsure about interactions with any other medicines, talk to your pharmacist. This includes medicines prescribed by your doctor or medicine you have bought for yourself including herbal and homeopathic remedies.

If you are allergic to any of the ingredients in this medicine do not start taking or using this medicine. You **must** tell your doctor or pharmacist about this.

How to take or use this medicine

Check the label attached to your medicine for instructions on how to take or use your medicine. If you are unsure please speak to your pharmacist or doctor.

Do not use this product after the expiry date on the label. As this medicine is specially made, it may only be suitable to use for a short period of time, normally up to a few weeks. There may be specific instructions on the product telling you not to use it after it has been opened for a certain length of time. It is important that you follow this advice.

If you are unsure of whether you will need to continue to take or use this medicine once this pack has been finished, please contact your doctor.

After you take or use this medicine

Some medicines may cause unwanted effects. It is important that you contact your pharmacist or doctor if you feel unwell after taking or using this medicine.

If your symptoms appear to get worse contact your doctor for advice.

How to store your medicine

Check the label on the medicine to find out how to store your medicine. Follow these instructions and store it in the original package.

Remember to always keep medicines out of sight and reach of children, preferably in a locked cupboard.

You should not keep this medicine any longer than you need to. If you don't need this medicine any more take it back to your pharmacist who will dispose of it safely for you.
